SUMMARY

Results-driven Data Analyst with hands-on experience in Python, SQL, Power BI, and Excel for data analysis, dashboard development, and business intelligence reporting. Experienced in cleaning and analyzing datasets of 50,000+ records, building interactive dashboards, and delivering actionable insights through exploratory data analysis (EDA). Passionate about solving business problems with data and creating KPI-driven reports that support strategic decision-making.

EDUCATION

Aryabhatta College of Engineering & Research Centre (Bikaner Technical University)

Bachelor of Technology (Computer Science & Engineering)

Graduated: August 2024

RBSE

Class XII (Science)

2020

RBSE

Class X

2018

PROJECTS

Sales Performance Dashboard | Power BI

- Developed an interactive dashboard for monitoring regional sales, product performance, and revenue trends.
- Built KPI cards, DAX measures, drill-through reports, and slicers.
- Reduced manual reporting and improved business visibility.

Customer Segmentation Dashboard | Power BI

- Performed RFM-inspired customer segmentation to identify high-value customers.
- Built interactive reports supporting targeted marketing and customer retention strategies.

E-Commerce Data Analysis | Python

- Cleaned and analyzed 50,000+ transaction records using Pandas and NumPy.
- Created 15+ visualizations using Matplotlib and Seaborn to uncover sales trends and anomalies.

SQL Analytics Pipeline | SQL & Python

- Designed an end-to-end analytics workflow using PostgreSQL, SQLite, SQL, and Python.
- Used joins, aggregations, subqueries, and window functions to generate business insights.

TECHNICAL SKILLS

Programming: Python, SQL

Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Business Intelligence, Predictive Analytics

Visualization: Power BI, DAX, KPI Dashboards, Data Modeling, Interactive Reports

Databases: PostgreSQL, SQLite

Tools: Excel, Pivot Tables, XLOOKUP, VLOOKUP, Jupyter Notebook, Google Colab, VS Code

Concepts: OOP, Data Structures & Algorithms, Generative AI

Soft Skills: Analytical Thinking • Problem Solving • Communication • Team Collaboration

CERTIFICATIONS

Tata Group Data Analytics Virtual Experience Program (Forage) | June 2026

CERTIFICATION DETAILS

Performed AI-assisted exploratory data analysis. Developed a no-code predictive framework for delinquency risk. Proposed an AI-powered collections strategy emphasizing responsible AI and governance.
